Research Fields

Information Economics; Mechanism Design; Contract Theory; Industrial Organization

Education

The University of Texas at Austin

Ph.D. in Economics	Expected 2027
M.S. in Economics	2023

Duke University, M.A. in Economics	2021
------------------------------------	------

Zhejiang University, B.A. in Economics	2019
--	------

Job Market Paper

What to Measure: Optimal Monitoring under Adverse Selection and Moral Hazard

Studies optimal monitoring when adverse selection and moral hazard coexist. The principal allocates monitoring resources between learning the agent's private type and observing the agent's hidden action, with implications for the design and value of information.

Work in Progress

Screening by Task Assignment

Studies contract design when agents can conceal or manipulate observed outcomes. Different tasks give agents different opportunities for manipulation, so task assignment changes the set of allocations that can be sustained through screening.

Competition and Privacy in Digital Markets

Studies how competition shapes firms' incentives to collect, use, and disclose consumer information in digital markets.

Presentations

2026 International Conference on Game Theory, Stony Brook University
Texas Theory Camp

Teaching Experience

Teaching Assistant and Grader for the following courses:

- Ph.D. Microeconomic Theory
- Intermediate Microeconomic Theory
- Introduction to Game Theory
- Economics of Auctions
- Introduction to Econometrics
- Economic Statistics
- Real Analysis for Economists

Research Experience

Research Assistant to Arjada Bardhi, Duke University	2020–2021
Research Assistant to John de Figueiredo, Duke University	2020–2021

Honors and Awards

M.A. Merit Scholar Award, Duke University	2020–2021
Zhejiang Provincial Scholarship	2018
Scholarship of the Real Estate Research Foundation, Zhejiang University	2017
Scholarship for Outstanding Merit, Zhejiang University	2016–2018

Technical Skills

Python; R; MATLAB; Mathematica; $\LaTeX$
